

# DAVID CAMERON

AGRONOMIST /  
FARMANCO DIRECTOR

## PROFILE

David Cameron has worked in Agronomy since 1996, joining Farmanco in 2009, providing support to clients in the central midlands area of Western Australia, David is passionate about driving productivity growth for his client base. He is quick to adopt new technology.

David works across all rainfall zones in the Dandaragan, Victoria Plains, Moora and Dalwallinu shires. He worked as an agronomist in Merredin for four years, then travelled internationally. Working with farming systems and rotations where he can apply his crop selection, crop protection, soil science, plant nutrition and pasture knowledge.

A Farmanco Principal, and Board Member, David also helps manage our research trials program.
